

Position: **Manager, Regulatory Affairs and Government Relations**

Locations: **Texas (1 position); Northeastern States (1 position)**

Reports To: **Director, Regulatory and Legal Affairs**

Opportunity:

As a strategic relationship builder, you thrive on proactively developing mutually beneficial working relationships with key partners from regulatory and governing bodies in the energy market space. Essential to your role is that you participate in state regulatory proceedings and governmental matters that enable us to effectively market our products and services, while advocating for industry standards and practices that align with our interests and allow Just Energy to maximize revenue opportunities.

Equally important to your success is collaboratively working with internal stakeholders to ensure that our business practices uphold the highest quality levels that meet or exceed regulatory and governmental requirements while allowing Just Energy to effectively operate in the marketplace.

Just Energy is a leader in the North American retail energy market and green energy options. We provide an energetic and engaging work environment that is focussed on professional and business growth through opportunity which is rewarded with competitive compensation, performance bonuses, and group benefits.

Key Accountabilities:

- Managing and monitoring regulatory activities, and proceedings or applications with local regulatory bodies and government bodies
- Establishing and maintaining effective relationships with government, regulators, utilities and market participants and playing an advocacy role with same
- Monitoring and participating in regulatory proceedings and governmental matters and ensuring company compliance with regulations/filings
- Advising business units on compliance with regulations and requirements for the marketing and sale of energy, and transactional and operational rules and guidelines
- Participating in the development of regulatory strategies and policies that support business strategies
- Partner with internal business units to establish awareness of regulatory activities and developments

Key Qualifications and Skills:

- University degree in political science, behavioral sciences, or business
- Minimum of 5 years experience in retail energy markets in a similar role
- Experience in a specific U.S. jurisdiction – Texas, or one of the Northeastern states.
- FERC and other ISO related regulatory experience is considered a strong asset
- Superior relationship management and negotiation skills
- Excellent written and verbal communication skills and organization and analytical skills
- Ability to manage a diverse workload and right timeframes in a highly autonomous environment
- Ability to travel regularly (up to 60% of the time)

How to Apply:

Please send resume via email to hirus@justenergy.com with the name of the position in the subject line.
